

## **MAKE YOUR OWN BUG HOTEL!**

**Making a bug hotel is easy and fun! Simply collect some leaves, stones, sticks, moss and anything else you can find in the garden or on walk.**

**Use some toilet rolls tubes, or carefully cut a plastic bottle in half, then arrange your natural items inside.**

**Put your hotel in a corner in the garden, at the edge of a path, or on a balcony and wait for your bugs to come and visit!**
