

Mrs Lamb's Funny Face

Challenge

Steps for making a Funny Face

1. Cut up strips of white paper, keeping them all roughly the same size.
2. Ask an adult to make a small hole on the left of each strip of paper.
3. Put the paper into 3 piles, each with the same number of pieces.
4. Use string, or anything else suitable you can find, and thread it through the holes, keeping it loose so the paper can be turned over.
5. Get drawing! The top pile of paper is for the eyes, the middle is for the nose, and the bottom is for the mouth. Get creative and use your imagination - what faces can you make?
6. Line them up and have some fun! What's the funniest face you have made?
