

## **How will Ludlow support with transition?**

In order for your child to feel happy at school they must be safe and secure. We ensure a robust transition plan for children transferring to our school that includes:

1. Prior visits with an adult known to them,
2. Staff attendance at external meetings,
3. Extra classroom visits
4. Key staff members attending infant schools,
5. A suitable transition programme depending on their needs.

In preparation for attending secondary school, we offer transition support that includes:

1. Extra transition visit accompanied by a member of staff,
2. Social stories,
3. Well being sessions

Any other support individual children may require.

The Wellbeing team, teachers and LSAs also support children with transition between schools and between year groups.
