

What is the SEND register?

Every school is required to identify learning needs of children. If the school identifies that the child has special educational needs, this is recorded on the SEND register.

A child is identified as having a special educational need if:

-they have a learning difficulty or disability which calls for a special educational provision to be made.

-has a significantly greater difficulty in learning than the majority of others of the same age

-has a disability which prevents or hinders them making use of the same facilities of a kind generally provided for others of the same age in mainstream school.
